To Whom It May Concern:

Our restaurant has over the past 10 years, had a maintenance & repairs contract with Refrigeration Direct. Through out this time the service we have received from Colin and company has been unquestionable.

We have always been able to rely on them for routine works and more importantly during many emergencies.

We now also depend on Colin's advice when purchasing any new kitchen or refrigeration equipment.

Without any doubt this company comes highly recommend and rate as one of our very best suppliers.

Please feel free to contact me should you have any further queries.
